All You Need to Know About Clematis

With Diane Hansgen. Today she will discuss clematis, including the three pruning types, planting and care as well as the new exciting kinds you can grow. There will be about a dozen of Donahue’s new varieties as door prizes for those who wish to try to win one (if the specimens are suitable in April).

Free parking in the ramp: Proceed to the ground floor. The ballroom is the first door next to the ramp. Upon checking in, you will receive a parking card. Don’t lose it. Use it to exit the ramp for free parking.
